

## Reading Plan: New CCNA 200-120, Using Old Books

This reading plan breaks down reading, by chapter, with no attempts to be more specific. This plan touches the major topics, but not every single specific topic as updated in [the new books](#). This plan assumes you have both these older books already:

- ICND1 2<sup>nd</sup> Edition: The CCENT/CCNA ICND1 Official Certification Guide, **Second Edition**, by Wendell Odom
- ICND2 2<sup>nd</sup> Edition: The CCNA ICND2 Official Certification Guide, **Second Edition**, by Wendell Odom

### Reading Plan for the CCNA 200-120 Exam

Read all chapters from both of the old books, except the chapter on wireless LANs, as noted in table 1.

*Table 1: Edition 3 Chapters to NOT Read when Prepping for CCNA 200-1201*

(Old) Book and Chapter	Topic	Action
<b>Book 1</b>		
ICND1 11	Wireless LANs	Ignore

Find information on the following major topics from another source; the chapters in the new books are listed for reference.

**Table 2: Topics to Find Elsewhere when Prepping for ICND2 200-101**

Topics	New Book / Chapter
FHRP	ICND2 6
WAN Survey	ICND2 15
IPv6 Address Discovery	ICND1 28
IPv6 protocols	ICND1 28
Static IPv6 routing	ICND1 29
T'shooting IPv6	ICND2 16
OSPF for IPv6	ICND2 17
EIGRP for IPv6	ICND2 18
Network Management	ICND2 19
IOS Licensing	ICND2 21
